

Ansh Lakkad

Computer Engineering · AI Enthusiast · Web Developer · App Developer

anshansh0999@gmail.com | +91 9898409048 | Jamnagar, Gujarat, India

SKILLS

Languages:

HTML, CSS, JavaScript, Python, AI/ML

Tools:

Figma, GitHub, VS Code, AntiGravity, Vercel

Domains:

UI/UX, Web Development, App Development

Soft Skills:

Quick Learner, Creativity, Team Player, Communication

LEARNING & ACTIVITIES

- LangChain & OpenAI APIs
- Hugging Face Models
- Python for AI/ML
- Biotech + AI Integration

EDUCATION

B.Tech — Computer Engineering

Madhuben & Bhanubhai Patel Institute of Technology
2023 – 2027 | In Progress

PROFESSIONAL SUMMARY

Computer Engineering student with a strong passion for building AI-powered tools and elegant web experiences. Experienced in front-end development and UI/UX design, with a growing focus on machine learning and intelligent automation. Eager to contribute to impactful projects through an internship.

PROJECTS

Biotech Career Finder

Personal Project | Python · AI/ML

- Built a smart biotech career recommendation platform that helps students discover biotechnology career paths, future opportunities, and skill-based guidance using modern technologies.
- Integrated AI/ML models to analyze student profiles and match them with relevant biotech career tracks and learning resources.
- Designed an intuitive UI with real-time recommendations and career progression insights.

Personal Portfolio Website

- Designed and developed a fully responsive portfolio website from scratch using HTML, Python, CSS, and JavaScript.
- Implemented clean UI/UX with smooth scroll interactions, animated sections, and mobile-first layout.
- Deployed live on Netlify for continuous delivery and easy public sharing.
